

Jake Norman

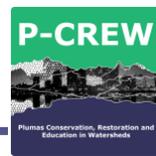

Jake will be working as a crew leader for P-CREW this summer. He was raised in Crystal Lake, IL and studied Religion and Philosophy at Iowa State University. For the past two years he has been working with the American Conservation Experience based in Flagstaff, AZ. In his free time he enjoys music and anything outdoors. He is very much looking forward to the experiences and new people he will have the chance to meet with the Sierra Institute.

Alana Joseph

Alana is one of the crew leaders this summer. She is a P-CREW alum both as a crew member and AAA. A few of her favorite parts of her two summers are: snowshoeing to a frozen lake one weekend, singing on the car rides to new locations, the project building fences around fens, and all of the friendships made. Alana is currently studying Environmental Studies and Biology at Macalester College in Minnesota. P-CREW helped to guide Alana towards these educational studies and passions. She has spent her entire life camping, hiking, and backpacking. Originally from Oakland California, she is excited to spend the summer back in California working in one of

her favorite areas. Alana enjoys playing ultimate frisbee, taking photographs, and spending time outdoors.

Elliott Bills

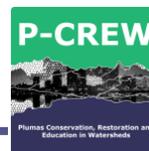

Elliott is a crew leader with Plumas Conservation Restoration and Education in Watersheds (P-CREW) and leads youth crews in summer projects protecting and maintaining the accessibility of the gorgeous northern Sierras. He is currently pursuing a degree in forestry with a concentration in conservation at Humboldt State University. He found his passion for natural land conservation volunteering with similar crews in Utah and Vermont. Joining P-CREW this summer, Elliott is excited to continue to work with youth, fostering a

lasting connection to natural lands that comes with living and working on them.

Kevin Price

Kevin earned his bachelor's degree in psychology from the University of California, Santa Cruz where he also pursued his love for the outdoors and connecting others to it through participating and working with the UCSC Recreation Department. Since graduating in 2016 Kevin has pursued opportunities in educating youth and connecting them with nature as an outdoor

educator, English as a Second Language (ESL) teacher, and substitute teacher in his local community of Palmdale, CA. His favorite past times include going for hikes and bike rides in his community, traveling abroad, and continuing to expand his knowledge of the natural world.
