

**Kylie Kersh**

Kylie was raised in Northern California in a small community near Lassen National Park. Growing up, winters mainly consisted of skiing at Lake Tahoe on the weekends. Summers were spent adventuring outdoors, camping, hiking and swimming in beautiful, clear lakes. Traveling and admiring how beautiful nature is led to a passion for conservation. She is graduating from Lassen High School and will be attending college in the Fall. After her learning experience at P-CREW session two of 2018, she is happy to announce she will be returning for session one of 2019! Kylie can't wait to expand her knowledge of the environment and gain more leadership experience. She is excited to meet and make connections this summer with her new crew as the Alumni All-Star Assistant

!

**Keaton Williams**

We are stoked to welcome Keaton Williams as a AAA for Session 1 2019! Keaton was born and raised in Yucaipa, in Southern California. In 2009 his family moved to Paradise, CA to flee the excessive expansion of our town in seek of a more simple way of life. I am a person who enjoys simplicity and time spent with my family and friends and his Australian Shepard, Drake. Keaton started enjoying being outside with his father doing activities such as hunting, fishing, camping, marksmanship, wood working, and engine working. He enjoy many types of music, but I mainly enjoy classical violin, Irish folk, and American country. His past employment with Sierra Institute under the P-CREW program was a great adventure and a rich experience, in fact it was so much fun that he had to come back to do it again! He is currently studying to become a Mechanical Engineer at Butte College and hopes to be able to improve the way we utilize transportation and obtain resources such as energy or metals. He is excited to share this unique experience with you and see you become a part of the P-CREW family.
